PRODUCT CATALOGUE

2026 EDITION

A family coffee business with origin at its heart

KIBCO Coffee Limited was established in London in 2023 as the coffee-focused expression of a family business whose company history began in 2011. Today, KIBCO imports Ethiopian coffee, roasts in London and serves retail, hospitality and trade customers.

Our promise is expressed in three words: From farm to cup. We value close origin relationships, clear product information and careful roasting so that every coffee carries its identity from source to customer.
